Imagine the sonic power of the world's most advanced synthesizer combined with the hands-on inspiration of a cutting-edge groove box. Imagine a sequencer that seamlessly integrates audio sampling and MIDI in a way never achieved before. Top it off with an intuitive user interface that gives you streamlined control over all that sonic firepower and you have the ultimate music workstation.

**MOTIF features include:**
- 85MB of wave ROM including sounds from the S80, 9000 Pro and EX Series synthesizers and many of the drums from the brand new RS7000 Music Production Studio plus hundreds of commercially available sample CD-ROMs
- Favorites category to store the voices you use most
- Pattern Mode to easily create the sections of your song (Verse, Chorus, Bridge, Breaks, etc.) as individual elements without having to decide on a final arrangement
- 4MB of sampling memory expandable to 64MB using affordable PC SIMMs for a maximum total sampling time of 6 minutes and 20 seconds (stereo, 44.1kHz)
- Remote Control mode turns MOTIF into a Real-time External Control Surface for Logic Audio, Cubase VST, Pro Tools and Cakewalk
- Newly designed arpeggiator features “human” patterns such as the strumming of a guitar or the trilling of a flute
- Built-in USB MIDI Interface
- SmartMedia™ Card Slot
- SCSI Port for connection of external storage devices and fast loading
- Room for up to 3 PLG Expansion Boards

**MOTIF KEYBOARDS** Music production workstations that will revolutionize the way music is made

**RS7000** A complete music production studio and integrated sampling sequencer

Everything you need for professional-level music production.
